

Global Development Learning Network - opportunities for Ukraine.

Goal: involving Ukrainian citizens to discussions of key development issues via participation in global dialogues with professionals all over the globe.

Objective: to initiate, coordinate and implement GDLN events in Ukraine.

The Global Development Learning Network (GDLN) is a partnership specializing in knowledge and learning solutions for people working on international development issues. Using a blend of learning tools that includes face-to-face, videoconferencing and web-based applications, GDLN learning specialists can package, design, and disseminate knowledge products and assemble the right audience for clients anywhere in the world.
